

St Jude PL Notification

Physicians Order Entry

March

QUESTIONS: Call Greg #5151/ Mel #5162

	Date	Dept	CHANGES	CONCERN ADDRESSED
			Order Entry	
1	3/5/15	ALL	<p>A rule will be placed when both CKMB and CK total are entered during the same session. The rule will prompt you to cancel the CK Total.</p> 	Entering both orders creates a duplication of the CK order as well as charge.
2	3/10/15	ALL	The duplicate popup when ordering an EKG and CXR within 24 hours from a previous order will be removed.	EKGs and CXRs are frequently ordered in sequence based on the patient's need and this popup deemed inappropriate.
3	3/10/15	ALL	<p>The Consult Physician order will have additional options in the Reason for Consult drop down list.</p> 	This comes at the request from the NorCal Region, to improve the ordering process and reasons for requesting.
4	3/12/15	NICU	A new Neonatal Comfort Care order set will now be available for use.	This order set was requested by SJMC Physicians.
5	3/19/15	ALL	<p>The PATH/BM (Bone Marrow) order will be changed into the following two orders:</p> <ol style="list-style-type: none"> 1. Pathology Tissue (Description change to the current order) 2. Pathology Bone Marrow (NEW ORDER) <p>(*Review Hot Sheet)</p>	This is to minimize confusion for provider and nursing when PATH/BM (Bone Marrow) is entered as it can be currently used to order both pathology for tissue and bone marrow.

* Note: highlighted in red are changes that will impact physician flow.
